

NATO BIOTECHNOLOGY CONFERENCE

"Prepare, Foster, Protect"

Royal Military Academy,
Brussels, Belgium

28 October 2025

Biography Dr. Megan EDWARDS

Megan EDWARDS is Head of Innovation Policy and Ecosystems at NATO HQ's Defence Industry, Innovation and Armaments Division (D2IA), where she is leading efforts to develop NATO policies on emerging and disruptive technologies crucial to defence and security. Prior to joining NATO, Megan has held various roles across the academic, defence and

public sectors. Her background is as a research physicist in the field of microelectronics and quantum technologies; she holds a PhD from the University of Cambridge and has served in the UK diplomatic service.
