“Prepare, Foster, Protect”

Royal Military Academy,
Brussels, Belgium

28 October 2025

Biography Frédéric DRUCK

Frédéric DRUCK is the current Secretary General of [Bio.be/Essencia](https://www.bio.be/essencia), the Belgian federation for the chemical industry and life sciences sector. The organisation represents the specific interests of more than 700 companies, both international and SMEs, which are active in the chemical, plastics, pharmaceutical and biotech industries, representing 95% of the sector's innovation-driven investments and total turnover. Essencia's role is to offer its members a tailor-made service with expertise and advice on sector-specific issues.

Prior to joining Essencia, Frédéric was Chairman of the Board of EU Biotech Campus, a training centre and business accelerator dedicated to the development of talents, skills and businesses in the biotech & health industry.
