

NATO BIOTECHNOLOGY CONFERENCE

“Prepare, Foster, Protect”

Royal Military Academy,
Brussels, Belgium

28 October 2025

Biography Dr. Nikolaos LOUTAS

Nikolaos (Nikos) LOUTAS is the Director of Innovation at NATO HQ's Defence Industry, Innovation and Armaments Division (D2IA) where he is leading efforts to foster and expedite technology adoption, and to develop policies on emerging and disruptive technologies to strengthen the Alliance's defence capabilities and to help NATO maintain its technological edge. Before joining NATO, he worked for the European Commission and held several positions in the private sector and in research. He has completed a PhD in information systems.
